EXECUTIVE SUMMARY

Senior technology and services leader with 25+ years of experience across **presales, technical support, escalation management, and service delivery** in large-scale enterprise IT environments.

Proven track record of leading global teams, managing strategic customer relationships, and driving business outcomes across **Cloud Infrastructure, Private AI solutioning, Oracle Engineered Systems, and Enterprise Databases**. Brings deep expertise in **solution engineering, customer support, escalation governance, and P&L ownership** across India, EMEA, ASEAN, and the US.

Currently leading **Oracle Cloud Systems Presales for EMEA**, driving high-value enterprise engagements and enabling revenue growth through strategic solutioning and customer alignment.

CORE LEADERSHIP CAPABILITIES

- Presales & Solution Engineering Leadership
 - Enterprise Customer Engagement & Executive Stakeholder Management
 - Technical Support & Escalation Governance
 - Service Delivery & P&L Ownership
 - Cloud & AI Infrastructure Strategy
 - Business Development & Revenue Growth Enablement
 - Cross-functional Collaboration (Sales, Product, Field Engineering)
 - Large Team Leadership (Multicultural, Multi-Geography)
-

PROFESSIONAL EXPERIENCE

ORACLE INDIA: June 2011 – Present

Director – Presales (Solution Engineering) (Dec 2018 – Present)

- Led **high-performing presales organization across India & Europe**, supporting enterprise cloud and engineered systems business.
- Drive **USD 300M+ annual Cloud Systems portfolio** across EMEA region.
- Act as strategic bridge between **Sales, Customers, and Product teams**, accelerating deal closure and executive decision-making.

- Own end-to-end presales lifecycle: Architecture & solution design, RFP/RFI responses, TCO & business case modelling, Competitive positioning
- Provide leadership on **complex and high-risk deals**, ensuring solution quality and customer confidence.
- Collaborate with executive leadership on **go-to-market strategies and pipeline growth**.
- Establish performance frameworks, metrics, and continuous improvement practices for presales excellence.

Senior Manager – Product Support (Jun 2014 – Dec 2018)

- Led global support teams across **Exadata, Engineered Systems, Oracle Linux, OVM, and cloud platforms**.
- Served as **executive escalation leader** for strategic global accounts, protecting **USD 200M+ installed base**.
- Improved customer satisfaction through structured feedback, service improvements, and operational excellence.
- Built and scaled **multinational teams across India & Europe**, driving capability development and performance.
- Enabled **USD 25M+ business expansion** via trusted customer relationships and collaboration with Sales.
- Influenced product roadmap through defect management, escalation insights, and engineering collaboration.
- Established **follow-the-sun support model** with partner ecosystem integration.

Customer Incident Manager (Jun 2011 – Jun 2014)

- Established **global escalation governance framework** for Engineered Systems.
- Led executive war rooms for critical customer incidents, ensuring rapid resolution and accountability.
- Built and scaled escalation management teams across **EMEA & APAC**.
- Delivered resolution for high-impact outages across **banking, telecom, and public sector**.
- Introduced proactive escalation prevention mechanisms and early-warning systems.
- Drove structured reporting on escalation trends, risks, and performance metrics.

iGATE GLOBAL SOLUTIONS

Service Delivery Manager & Technical Lead (Jan 2008 – Jun 2011)

- Managed **USD 25M+ infrastructure services portfolio** across APAC & EMEA.
- Owned end-to-end delivery including **RFPs, SOWs, SLAs, and contract governance**.
- Led large cross-functional teams across: Infrastructure, Databases, Middleware, Applications
- Designed operational frameworks for **incident, change, risk, and security management**.

- Owned financial governance including **P&L, cost optimization, and delivery efficiency.**
 - Applied ITIL best practices to strengthen service delivery maturity.
-

TATA CONSULTANCY SERVICES (TCS)

IT Analyst (Nov 2000 – Jan 2008)

- Started career as **UNIX System Administrator & Oracle DBA.**
 - Supported enterprise environments across production, staging, and development.
 - Delivered infrastructure and virtualization support for global customers (UK & India).
 - Gained early expertise in **VMware, Data Center Operations, and multi-OEM platforms.**
 - Built strong foundation in **systems administration and IT service management.**
-

TECHNICAL EXPERTISE

Enterprise Databases

- Oracle Database (RAC, Data Guard, ASM, Multitenant, AWR, AHF)
 - Oracle Enterprise Manager, GoldenGate, RMAN
 - Autonomous Database & cloud database services
 - Exposure to **SQL Server & cross-platform ecosystems**
 - AI-enabled databases (Oracle 23ai / 26ai)
 - Vector databases & semantic search architectures
-

Cloud Infrastructure & AI

- OCI Architect Associate & AI foundations certified
 - Public, Hybrid (Cloud@Customer), and Private Cloud architectures
 - GPU-based AI infrastructure and model training platforms
 - Business case development (TCO, ROI, cost optimization)
 - AI use cases including:
 - Generative AI POCs
 - Vectorization & LLM-based architectures
 - Agent Factory, Agentic AI framework
 - AI Services Container
 - AI optimiser & Toolkit
-

Engineered Systems & Data Protection

- Oracle Exadata, ODA, ZDLRA, PCA

- Cloud@Customer Systems
 - Ransomware protection & Isolated recovery environment
 - Backup & recovery architectures
 - Enterprise workload modernization & transformation
-

Virtualization & OS

- Oracle Linux, VMware, KVM, Hyper-V, Xen
 - Large-scale virtualization (5000+ VMs)
 - HA architecture, lifecycle management & performance optimization
 - Shell scripting & automation
 - Oracle APEX application oversight
-

EDUCATION & CERTIFICATIONS

- Diploma in Electronics & Telecommunications Engineering
 - OCI Architect Associate
 - OCI AI Foundations Associate
 - OCI Foundations Associate
 - Exadata Certified Specialist
 - Oracle Database OCA (11g)
 - Oracle Autonomous DB OCS
 - ITIL Foundation
 - Oracle Cloud@Customer & PCA Foundation
-

CAREER HIGHLIGHTS

- 20+ years of progressive leadership across top-tier IT organizations
 - Led global teams across **India, Europe, and APAC**
 - Managed **\$300M+ business portfolios and critical enterprise customers**
 - Delivered **high-impact presales, support, and service transformations**
 - Strong blend of **technology depth and business leadership**
-

PROFESSIONAL STATEMENT

Seeking senior leadership opportunities to drive **customer success, business growth, and innovation** across presales, **service** delivery, and cloud/AI transformation domains.
